

Subcontractor/Consultant Conflict of Interest Certification

[_____], hereby certifies (in accordance with FAR Subpart 9.5) that, to the best of their knowledge and belief, there are no relevant facts, circumstances, or currently planned interests (financial, contractual, organizational, or otherwise) relating to the work to be performed under any resulting subcontract from the Request for Proposals to provide a digital adaptive math product to districts and schools for the ReSolve Math Study being conducted by MDRC and partner organizations on behalf of the U.S. Department of Education’s Institute of Education Sciences, that could give rise to an organizational or personal conflict of interest (or apparent conflict of interest) for the organization or any of its relevant staff/employees, contractors, or consultants (including conflicts of interest for their immediate family members: spouses, parents, children) that would impinge on its ability to render impartial, technically sound, and objective assistance or advice or result in it being given an unfair competitive advantage, and/or that the offeror has disclosed all such relevant information if such a conflict of interest appears to exist. In this certification, the term “apparent conflict of interest” means reasonably foreseeable or potential conflict of interest. The Offeror further certifies that it has and will continue to exercise due diligence in identifying and removing or mitigating, to the government’s satisfaction, such Conflicts of Interest (or apparent conflicts of interest), and notifying MDRC upon discovery of any such conflict or potential conflict.
